

# Love Without Emotion

Pissed Jeans

If I climbed up a flagpole I'd still find children crying there  
There was a time when that would bother me but now I couldn't care

You're living down in Houston, but for me that's just too hot  
One day we'll meet in New Orleans, and we can sweat a lot

You're vomiting next to me, while I finish my ice cream  
I'm handed a love letter but I'm not sure what it means  
I'll finish the awful food you brought me just to be polite  
But I've forgotten it's your birthday, though you reminded me last night

Cause I've got love, love without emotion  
I've got love, love without emotion

I got love, love without emotion  
I got love, love without emotion

Yeah I fed it  
It grew  
I learned it  
From you  
Vulnerabilities  
Are few  
Hugs lead to kisses  
Who knew

Yeah I got love  
Oh I got love  
I got love, love without emotion  
I got love, love without emotion  
I got love, love without emotion  
I got love  
I need love  
I got love  
I need love

I got love, love without emotion  
I got love, love without emotion  
I got love, love without emotion
