

## This Too Shall Pass

Pistol Annies

If you always feel like you're doin' something wrong  
Must be doin' somethin' right  
Just means you're tryin' to please me when the only thing I'm n  
eedin' is a good old fashioned fight

We get each other high  
We make each other try  
We make each other want to cry  
We make each other laugh  
We set each other free  
Honey can't you see this too shall pass

When you feel like you're not gettin' the attention you deserve  
The thought of me stealin' the show  
Sometimes it's hard to look at the [?] don't change the fact th  
at we'll never let each other go

We get each other high  
We make each other try  
We make each other want to cry  
We make each other laugh  
We set each other free  
Honey can't you see this too shall pass

I love you at your worst, you hate it when I hurt  
Honey can't you see you're everything to me  
And I'm everything to you, we'll do what we gotta do  
To make it last  
This too shall pass

We get each other high  
We make each other try  
We make each other want to cry  
We make each other laugh  
We set each other free  
Honey can't you see this too shall pass  
This too shall pass
