

Begin the End

Placebo

Look me in the eyes, say that again
Take me to your chest and let me in
Get me mouth to mouth and make a mess
Knock me off my feet like heroine

No need to disguise or to pretend
Don't misconstrue and don't misapprehend
There's nothing left, no fortress to defend
Tonight's the night, that we begin the end

You and I kept looking transcend
The fact that I was breaking to your bend
But this is now insanely than was then
And tonight's the night, that we begin the end

Not tried, God knows I tried
But there's nothing you can do to change my mind
I tried, God knows I tried
But there's nothing you can do to change my mind

And I don't enjoy to watch you crumble
Don't enjoy to watch you cry
But make no mistake
Make no mistake

Look me in the eyes and say it again
Blame me for the sorry state you're at
It's not my fault if you can't comprehend
And tonight's the night, that we begin the end

Not tried, god knows I tried
But there's nothing you can do to change my mind
Not tried, god knows I tried
But there's nothing you can do to change my mind

And I don't enjoy to watch you crumble
Don't enjoy to watch you cry
And I don't enjoy to watch you crumble
And don't enjoy to watch you cry
Make no mistake
Make no mistake

Look me in the eyes say that again
