

# If We Try

Planet Funk

When we try  
We can be anything  
When we get high  
We can see everything

When we try  
We can be anything  
When we get high  
We can see everything

Last night you called  
And your voice  
So far away, far away  
And it may disappear

Last night I froze  
Sweat soaked my clothes  
When the sun rose  
I prayed that It would never set

When we try  
We can be anything  
When we get high  
We can see everything

When we try  
We can be anything  
When we get high  
We can see everything

Last night I swear  
That I felt you near  
I will be here  
I swear, I will be here

You warm my nights  
Shade my days  
Fill my thoughts  
My head like salt like breath

When we try  
We can be anything  
When we get high  
We can see everything

When we try  
We can be anything  
When we get high  
We can see everything

Tonight is here  
And I feel you near  
I will be here  
I swear, I will be here.
