Everything To Me

Planetshakers

When I feel down I look to you When I feel low your words ring true Its not by might or in my strength But its by your spirit moving in my life Cos God you are my life

I will praise you You're everything to me I'll live for you You're the reason that I sing I won't go back to the way it used to be Cause I've found you and your everything to me

At times when I look down and all I see is Sinking sand I'm thankful that it's you the solid rock on Which I stand
