Rain of Heaven

Planetshakers

Let the rain of Heaven Be poured out in this place Let the earth be flooded With Your mercy and Your grace Open up the Heavens in this place Let it rain, let it rain

Lord our hearts are thirsty Our passion is renewed Longing for the waters That only come from You Open up the Heavens in this place Let it rain, let it rain

Cause I am thirsty for the waters That only come from You Flowing from the mighty river That flows out from Your throne

Come now, O Holy Spirit Rain down, rain down Thirsty for a touch from Heaven Rain down on us

Here we are waiting With one heart One mind, and one accord Let the fire from Heaven Fall on us now With power to overcome
