

Everybody Wanna Luv Somebody

Playa

If i was alone with you
there's a couple things i'd do
i'd make you crack a smile
conversation for a while
there'd be no holdin back
as my fingers run your back
there's a cloud of my affection
floatin right in your direction
(chorus)

everybody wanna love somebody
girl if you want me
come on and get me
since everybody gotta love somebody
now that you've got me
show me you're a hottie
They tell me you study long
then you might've studied wrong
baby don't procrastinate
or hesitate cause i can't
until you get the feelin
let me know when you are willin
to lay your body down
and take me for a round...

(chorus)

You wanna get lose
then baby come make your move
you need a little love
here i am, i'ma be the one
feel a little hot
and don't make me wait to see what you got
don't be shy
let's give it a try...

Hey baby...

do you wanna

love-love-love me (4x's)
