

# Darkness Steals the Light

Plazma

I am frozen in the ice of pride  
I've just buried my love  
It has suddenly died  
And my eyes are getting bloodshot tonight  
No regrets, no remorse  
I am ready for fight

Love.  
It don't matter  
Now don't matter  
But love...  
It don't matter  
Now don't matter  
Darkness steals the light, yeah..  
Darkness steals the light, yeah...  
Darkness steals the light.

There's no going back, no standing still  
I am hungry for war  
I got no time to kill  
The smell of retribution strengthens my will  
I will pay off old scores  
I will pay off old bills

Love  
It don't matter  
Now don't matter  
But love  
It don't matter  
Now don't matter  
Darkness steals the light  
Darkness steals the light  
Darkness steals the light  
Darkness steals the light

I'm mad I'm wild I'm driven to desperation here  
I'm mad I'm wild I'm driven to desperation  
I'm mad I'm wild I'm driven to desperation here  
I'm mad I'm wild I'm driven to desperation

Darkness steals the light

Love  
It don't mean a thing at all  
It don't mean a thing at all  
Love  
It don't mean a thing at all  
It don't mean a thing at all

Love  
It don't matter  
Now don't matter  
But love...  
It don't matter  
Now don't matter

Darkness steals the light

I'm mad I'm wild I'm driven to desperation here  
I'm mad I'm wild I'm driven to desperation  
I'm mad I'm wild I'm driven to desperation here  
I'm mad I'm wild I'm driven to desperation
