

Lonely 2

Plazma

Used to choose I`m not used to be chosen
Supercilious stars are all frozen
Fashionable surroundings are splendid
I don`t know what it means to be stranded

Blinded by fame, I never knew
You could have been my love
I miss true wealth
Love that I`ve killed by myself

`Cause you`re young and proud
You have crossed me out
Lost and feeling blue
Now that I am lonely
I will pray, linger out my days
What more can I do
Now that I am lonely too?

An important thing`s good reputation
Far from puriest hearts isolation
I was poisoned with fruits that I tasted
Irreversible time that I`ve wasted

Bear in your mind, now I repent
All that I did was wrong
I should have known,
Soon I would feel so alone

Listen to my story
I wanna say I`m sorry
Don`t go in such a hurry
Listen to me
