

Lonely

Plazma

I can see you shining
I can see you running
From my soul and heart
It's tearing me apart
It's love

Look what you
Have done to me
My little star

'Cause you are young and proud
You're never turning about
You make me love you
'Cause you are wild and cool
You're breaking all the rules
You make me lonely

Baby steal my heart away
I'm a loving loser I'm lonely

I'm so lonely!

Can you hear me crying
C-c-can you see me trying
I've been lied through years
Baby dry my tears
Of love

Look what you
Have done to me
My little star

'Cause you are young and proud
You're never turning about
You make me love you
'Cause you are wild and cool
You're breaking all the rules
You make me lonely

Baby won't you give it to me
Baby I'm a stupid if lie
Baby won't you ever be here?
Baby won't you ever be mine?
