

Never Ending Story

Plazma

We can't comprehend the unexplored universe
Our incompetence is the heaviest curse
The matter's two things deranging our brains
Questions pending, they're called time and space

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're just a grain of the infinite chain

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're living to die

The unit is locked, ain't no code to escape
The stop mode is blocked, ain't no end of the tape
We triumph, we mourn, we laugh and we cry
As soon as we're born, we start to die

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're just a grain of the infinite chain

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're living to die
Is that the meaning of life

The meaning of life
Is it the meaning of life
The meaning of life

What century do we live in
We keep on helping the Earth die
We disinherit our children
It really looks like suicide

Mankind lets common sense give in
We keep on helping ourselves die
We kill and orphan our children
Is it the meaning of our life

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're just a grain of the infinite chain

Never ever ending story
Mankind is blind, the limited mind
Never ever ending story
We're living to die
Is that the meaning of life
