

Red sky

Please the Trees

I have enough fuel in my car to burn your house down
I have enough fuel in my car to burn your house down

I have enough fuel in my car to burn your house down
I have enough fuel in my car to burn your house down

Give me a match, give me a match, give me a match
Give me a match, give me a match, give me a match

Don't run
Hold my hand
Watch the sky turn red

From roof to roof
Follow the flames
Watch 'em dance

Don't, don't, don't, don't, don't run
Hold my hand
The sky turn red
The sky's red
The sky's red.
