

## Acrobat

Plumb

It's so hard to not give in to how I feel  
I'm so tired trying to be everything  
I wanna quit I wanna start over  
I wanna stay here I wanna ran farther  
Away

I feel like an acrobat, I've gonna be strong, I've gotta be fast  
It's a balancing act, I've gotta be this, I've gotta be that  
I know we all fall down, but before I hit the ground  
Hold me now (say you're never gonna let me go)  
Hold me now (say you'll never let me go)

Don't look down, 'cause when I do everything spins around and around  
Trying to just breathe in  
I wanna let go, I wanna hold on, I wanna jump down, I wanna fall more  
In love with you

I feel like an acrobat, I've gonna be strong, I've gotta be fast  
It's a balancing act, I've gotta be this, I've gotta be that  
I know we all fall down, but before I hit the ground  
Hold me now (say you're never gonna let me go)  
Hold me now (say you'll never let me go)

I might break every bone, forget the way to get back home to you  
And when it feels like I'm blind, be my light, be my eyes  
With your eyes

I feel like an acrobat, I've gonna be strong, I've gotta be fast  
It's a balancing act, I've gotta be this, I've gotta be that  
I know we all fall down, but before I hit the ground  
Hold me now (say you're never gonna let me go)  
Hold me now (say you'll never let me go)  
Hold me now (say you're never gonna let me go)  
Hold me now (say you'll never let me go)  
Hold me now  
Hold me now  
Hold me now
