

## Cure

Plumb

Been there before  
Slowly drifting out to sea  
Away from the tide  
And a darkness surrounds me

I'm out of hope  
I'm out of strength this time

I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it  
I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it

A breath of air  
A calm that surrounds me  
But I want to know how  
To let it inside

It gives me peace  
It frees this pain I hide

I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it  
I've never seen it  
No, I've never heard it  
I've never been it  
But I'm searching for it

Cure, cure, cure, cure
