

Here With Me

Plumb

In my head i have dreams
I have visions of many thing
Questions longings in my mind

Pictures fill my head
I feel so trapped instead but
Trapped doesn't seem so bad
'cause you are here

It doesn't mean anything
Without you here with me
And i can try to justify
But i still need you here with me

In my heart i had hope
Built on dreams i'll never know
Answers to love left behind

Visions filled my head

I felt so trapped instead but
Trapped doesn't seem so bad
'cause you were near

I can't do anything without you
You give me strength to do anything
I can't be everything i try to
You saved me from the everything
I couldn't be

It doesn't mean anything
Without you here with me
'cause after all is said and done
I still need you here with me

Need you here with me
I need you here with me
