

In My Head

Pnau

Lean back to the hills, sway right to the full
Give back what you can, not just what you will
Lean back to the hills, sway right to the full
Give back what you can, not just what you will

Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check

Lean back to the hills, sway right to the full
Give back what you can, not just what you will
Lean back to the hills, sway right to the full
Give back what you can, not just what you will

Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check

Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
Sing it in my head, then you wake up in my bed
See you with my friends, then you make me come to check
