

Please Forgive Me

Pnau

All these thoughts go out my window
I came close but I'm still solo
All before the thirteenth time
Good luck will bring another lover
Everything that comes will go away
With the rhythm that she gives me
Everything you love will fall away
Drop those bombs and touch the sky

Hey, hey you, don't you ever weave your love
Hey, hey you, don't you ever weave your love
Hey, hey you, are you running out of time?
Hey, hey you, I'm looking out for you

Please forgive me all I've done before
Please forgive me all I've done before
Please forgive me all I've done before
Please forgive me all I've done before

Steer your course towards my kingdom
Now you're standing on my tightrope
All four points are unified
Good luck will bring another lover
Everything that comes will go away
With the rhythm that she gives me
Everything you love will fall away
Drop those bombs and touch the sky

Hey, hey you, don't you ever weave your love
Hey, hey you, don't you ever weave your love
Hey, hey you, are you running out of time?
Hey, hey you, I'm looking out for you

Please forgive me all I've done before
Please forgive me all I've done before
Please forgive me all I've done before
Please forgive me all I've done before

Please forgive me all I've done before
(Hey, hey you, don't you ever weave your love)
Please forgive me all I've done before
(Hey, hey you, don't you ever weave your love)
Please forgive me all I've done before
(Hey, hey you, are you running out of time?)
Please forgive me all I've done before
(Hey, hey you, I'm looking out for you)

Please forgive me all I've done before
(Hey, hey you, don't you ever weave your love)
Please forgive me all I've done before
(Hey, hey you, don't you ever weave your love)
Please forgive me all I've done before
(Hey, hey you, are you running out of time?)
Please forgive me all I've done before
(Hey, hey you, I'm looking out for you)
