

# Faith, Hope & Love

Point Of Grace

Faith, Hope and love  
Is more than enough when times get tough  
Faith, hope and love  
Will tunnel through what's in front of you  
If you just trust in faith, hope and love

There's a lot of things we face  
That seem to pull us down  
There's a lot of tears and pain  
That turn our world around  
Seems the hammer always falls against us  
At our weakest times

But I know a power that can heal  
The wounds it leaves behind  
It's a stone's throw away  
From anything we may face

Faith, Hope and love  
Is more than enough when times get tough  
Faith, hope and love  
Will tunnel through what's in front of you  
If you just trust in faith, hope and love

There's a lot of hurt and sorrow  
That can cloud the bluest skies  
Still there's hope in tomorrow  
If we just close our eyes  
To every fear we must face  
As we learn to embrace...

Faith, Hope and love  
Is more than enough when times get tough  
Faith, hope and love  
Will tunnel through what's in front of you  
If you just trust in faith, hope and love

You can trust  
You can really, really trust  
In faith, hope and love

Just a little faith will pave the road before you  
To see you through

Faith, Hope and love  
Is more than enough when times get tough  
Faith, hope and love  
Will tunnel through what's in front of you  
If you just trust in faith, hope and love  
(3x)
