

# Fear of Freedom

Poison Girls

Falling back headlong  
to the start of it all  
You fell back screaming  
the original fall  
You fell to earth between  
your mother's knees  
Bayoneted by the need to please

Children - listen - shiver - listen  
Your story - my story - our story  
Old familiar carrion crow  
Junk impresario road show

Watch out  
For the spiders of compulsion  
Watch out  
For the spinners of submission  
Trussed up and paralyzed  
they've got you where they want you  
They leave you there to die  
they've got you where they want you  
You fight for your life  
held back by fear of falling  
You fight for your life  
held back by fear of feeling  
You fight for your life  
held back by fear of freedom  
Your only fear - the fear of freedom

Why do you think that  
they are laughing  
Because they've got you  
where they want you

They already got your number,  
got your picture, stole it from you  
They already got your picture,  
got your story, wrote the ending  
They already got your future,  
got your children, stole them from you  
They gave no explanation, they gave  
no explanation, no explanation

They already built the fences,  
clipped your feathers, built your tethers  
They already got your rivers,  
stole the pastures, stole them from you  
They already got your future,  
got your children, stole them from you  
They gave no explanation, they gave  
no explanation, no explanation

Why do you think that  
they are laughing  
Because they've got you  
where they want you

They taught you fear of falling  
They taught you fear of feeling  
They taught you fear of freedom.
