

Zombies Are Good for Your Health

Poison the Well

this morning when i awoke from the cushioned coils
eyes pouring their little hearts. it didn't feel normal
walking here
religiously
thinking the same black thoughts
as always you were'nt lying next to me
with that smirk on your face right then
were you giving me the images constantly flickering
i'll take the advice passed down
i see you on your side, bad luck
starlit nights when i awoke from the cushioned coils
eyes pouring their little hearts. it didn't feel normal.
nightmares stop reality, thinking the same black thoughts
this is the last time i'll be confused or compromise
my emotions
