

Lately, we've sleeping with the sun  
Seems like we're too comfortable in love  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
Easy to hide away hold up  
Better to only touch when we need to touch  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
Changes, gonna come on quick  
We're like wax melting down upon the wick  
New one begins and  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
It's gonna be my only way  
If it's good it's gonna stay  
Lately I feel the weight of love  
Irreversible damage but it's good,  
I'm good  
Seems like we're too comfortable in love  
Seems like this'll be good for us
