

Disco Damaged Kid

Polly Scattergood

My bones
they break
my heart isn't
worth the wait
don't rush
I'm running late
always something that gets in the way

Don't need saving
just a taste
Don't need anything
I feel safe
'coz we don't need saving
We never did
someone fetch a stretcher
for the disco damaged kid

Just leave
I wish you well
wasn't out fault
that the skyline fell
couldn't breathe
tried to speak
we kept on running with chains around our feet

Don't need saving
just a taste
Don't need anything
I feel safe
'coz we don't need saving
We never did
someone fetch a stretcher
for the disco damaged kid

I have no words that I want to say
I don't know myself that well these days
Don't need saving
just a taste
Don't need anything
I feel safe
'coz we don't need saving
We never did
someone fetch a stretcher
for the disco damaged kid
