

Other Too Endless

Polly Scattergood

Just a little, just a little too late he said
"I made the biggest mistake and I
Never ever, ever, ever meant to cause you harm"

And then she said, "Darling, you don't understand,
It was the blacks Sambucas and it got out of hand
And I really don't remember which side of the bed I got
up on
No, I've forgotten

So it can't be real, no it can't be real
If I close my eyes then maybe I won't feel this
It can't be real, no it can't be real
If I close my eyes then maybe I won't feel this
I'm an other too endless, so do you think I should end
this?

Then you lie, lie, lie now you want me back
Because you die, die, die if you don't get that
And everybody's off their pillows, they're playing
games
Drawing pictures in my mind trying to feel my pain

Well it can't be real, no it can't be real
If I close my eyes then maybe I won't feel this
It can't be real, no it can't be real
If I close my eyes then maybe I won't feel
I'm an other too endless, so do you think I should end
this?

And I will always bring you lots of 'Do you good' soup
Because I am, because I am kind
And I will always share with you a few good memories
Cos I am... love blind

And I gave you my body and when I said I did, I meant
it
And you gave me your anger, and for that I'm still
trying to vent it
And that hurts... I give up

You can't be real, no it can't be real
If I close my eyes then maybe I won't feel this
It can't be real, not it can't be real
If I close my eyes then maybe I won't feel
I'm an other too endless, so do you think I should end
this?

It can't be real, no you can't be real
If I close my eyes, then maybe I, I won't feel this
You can't be real, no you can't be real
If I close my eyes then maybe I won't feel
I'm an other too endless, so do you think I should end
this?
