

Carrie Ann With The White Dress

Poni Hoax

Carrie Ann with the white dress on
You've stepped in the mud again
Carrie Ann with the white dress on
You've been bad again

And though you don't like this dress at all
You're just a little brat out of control

Carrie Ann with the white dress on
You've stepped in the mud again
Carrie Ann with the white dress on
You're the only one to blame

And though you don't like this dress at all
We gave it to you for your communion

Carrie Ann with the white dress on
Don't leave us alone again
Carrie Ann with the white dress on
We'll have to kill you again

You are the star, you are the sea
You are the ghost that fell down at our feet

Carrie Ann with the white dress on
You've stepped in the mud again
Carrie Ann with the white dress on
You're the only one to blame

And though you don't like this dress at all
You're just a little brat out of control

Carrie Ann with the white dress on
It's all over now
Carrie Ann with the white dress on
They talk about you now

The way you were
The way you've gone
The way you were the only son

The only son
The only son
The only son
