

# A Crime To Remember

Pop Evil

There was a time  
Took the abuse  
Still all accused  
Since we fell  
Stars on fire  
Now tie the news  
Stars on fire  
Nothing but hell

Stuck in a war  
Cover you eyes  
There's been the truth  
No DNA  
Eating away  
Just show me the proof  
Stars on fire  
Show me the proof  
Show me the truth

(Yeah)  
This is a crime to remember  
Was broken apart  
Won't go back together  
(Yeah)  
This is a crime to remember  
For better, for worse  
You won't forget forever  
(Yeah)  
For better, for worse  
You won't forget forever  
(Yeah)  
Show me the truth  
Show me the truth

Heavy the heart  
Broken apart  
Still never the same  
Nowhere to rest  
Never confess  
Still living in chains  
Stars on fire  
Show me the proof  
Show me the truth

(Yeah)  
This is a crime to remember  
Was broken apart  
Won't go back together  
(Yeah)  
This is a crime to remember  
For better, for worse  
You won't forget forever  
(Yeah)  
For better, for worse  
You won't forget forever  
(Yeah)  
Show me the truth

Show me the truth

Are we divided  
Are we united  
Are we divided  
Are we united  
Are we divided  
Are we united

(Yeah)

This is a crime to remember  
Was broken apart  
Won't go back together

(Yeah)

This is a crime to remember  
For better, for worse  
You won't forget forever

(Yeah)

For better, for worse  
You won't forget forever

(Yeah)

This is a crime to remember  
For better, for worse  
You won't forget forever

Are we divided  
Are we united  
For better, for worse  
You won't forget forever  
Are we divided  
Are we united
