

## Colors Bleed

Pop Evil

Sedate by all means, money machines  
Segregate, kings for queens  
Institutions, constitutions  
Freedom, where's the solution  
Never mind, never will  
Any time, shoot to kill  
Built by hate with no one to love  
Stand in line, you're about to get shoved

Step aside, watch the colors bleed  
Step aside, watch the colors bleed  
The rise of democracy  
Step aside, watch the colors bleed  
Step aside, watch the colors bleed  
The rise of democracy

Fight the system, stop and listen  
True colors, how can you miss 'em  
Born with knowledge, raise the fist  
Face the enemy, just resist  
Surrender but the brand remains  
Lock us up, can't be contained  
Built by hate with no one to love  
Stand in line, you're about to get shoved

Step aside, watch the colors bleed  
Step aside, watch the colors bleed  
The rise of democracy  
Step aside, watch the colors bleed  
Step aside, watch the colors bleed  
Step aside

There's evil in us all

Step aside, watch the colors bleed  
Step aside, watch the colors bleed  
The rise of democracy  
Step aside, watch the colors bleed  
Step aside, there's evil in us all
