

Dead in the Water

Pop Evil

I was drifting thinking
You wouldn't let me go
Why was reaching for
Something that wasn't there

Light in the darkest place
Truth in a silent space
Hope when it's hopeless and
There's nothing left to save

I'm all alone stuck in a bottom because you
I'm all broken up all the pieces unglued
I'm seeing everything that I had float away
Thrown to the side like a cast away

Where are you now?
Where are you now?

You know it weighs me down
Pressure building all around
You said you'd never let me drown
But now I'm dead in the water
Time washing over

This sacrifice
Sinking til I'm out of sight
You said you'd bring me back to life
But now I'm dead in the water
Time washing over

Soaked to the bone and now I'm
Drenched in the sorrow of the
Tide that keep rising as my
Thoughts pull me lower

Breathe when you suffocate can't
See when you blinded by the
Flood filling up my lungs
You cannot hear me scream

I'm all alone stuck in a bottom because you
I'm all broken up all the pieces unglued
I'm seeing everything that I had float away
Thrown to the side like a cast away

Where are you now?
Where are you now?

You know it weighs me down
Pressure building all around
You said you'd never let me drown
But now I'm dead in the water
Time washing over

This sacrifice
Sinking til I'm out of sight
You said you'd bring me back to life

But now I'm dead in the water
Time washing over

Gotta get my head back above water
Come and save me cause I'm drowning
Gotta get my head back above water
Pulling me under farther and farther
Gotta get my head back above water
(Come and save me cause I'm drowning)

You know it weighs me down
Pressure building all around
You said you'd never let me drown
But now I'm dead in the water
Time washing over

This sacrifice
Sinking til I'm out of sight
You said you'd bring me back to life
But now I'm dead in the water
Time washing over
