

## In Disarray

Pop Evil

Glass half empty  
Fingers numb and cold  
Nothing's easy when you've lost control  
Each day a broken promise  
Tightrope a crooked line  
True love but lets be honest  
Can't trust a poisoned mind

[Chorus:]

Throw it away, throw it away, your world's in disarray  
Carried away, carried away, what a mess you've made  
The medicine you crave is overrated  
Throw it away, throw it away

Thoughts gone sour in my bitter head  
Dancing dreams while I've been left for dead  
Each night an endless stumble  
Crawl through the rabbit hole  
Reach out bu no one's with me  
Burned every bridge I know

[Chorus:]

Throw it away, throw it away, your world's in disarray  
Carried away, carried away, what a mess you've made  
The medicine you crave is overrated  
Throw it away, throw it away

The medicine you crave is overrated

[Chorus:]

Throw it away, throw it away, your world's in disarray  
Carried away, carried away, what a mess you've made  
The medicine you crave is overrated  
Throw it away, throw it away
