

All My People

Portugal. The Man

Oh oh oh oh deeper in and deeper still use your hands
like eyes sift around the bottom row and soon will be
your time keep your hands by your side keep your hands by
your side I've got my hands on it I've gotta find a way
out I've got my hands on it I've gotta find a way out to
bring all my people with me bring all my people with me
deeper in and deeper still the belly was the bank the
lion holds the mouth we feed still died at forty-five
keep your hands by your side keep your hands by your side
I've got my hands on it I've gotta find a way out I've
got my hands on it I've gotta find a way out to bring all
my people with me oh oh oh oh
