## Portugal. The Man

I found the way out, But if I told you you'd be down. And I hate to get you down, When you're up so high. And I hate to get you down, When you're up so high. And I hate to get you down, I hate to get you down, When you're up so high. So high. So high.

Children come in, Find a seat, you're sure to do.
