

## Dominion

## Possessed

Pray to your god up above  
Bow to your sin down below  
All of the kingdoms and the thrones  
All of these gifts, yours to own

Gaze in the fire, lose your soul  
Swear to the power and behold  
Black devils waiting in the night  
Blood stains the altar  
On this moonlit night

I have dominion over life  
I have dominion over death  
I have dominion over hell  
I have the power of hellfire

Eyes of idols, thrones of man  
Built upon the burning sand  
All shall perish, fall to ruin  
The end of times, impending doom  
Seven years and seven lives  
Seven brides, the devil's wives  
Seven priests and seven sins  
Seven gates to enter in

The devil comes and offers all  
In return the cities fall  
All the kingdoms and the thrones  
All these things are yours to own  
Bow before me, on your knees  
Close your mind to all the screams  
It's your time to enter hell  
Bear witness now to all who fell

Pray to your god up above  
Bow to your sin down below  
All of the kingdoms and the thrones  
All of these gifts, yours to own

I have dominion over life  
I have dominion over death  
I have dominion over hell  
I have the power of hellfire
