Tribulation

Possessed

Can you hesr the thunder?
Can you hesr the sound?
Can you hesr the nightmares?
Can you hesr the ground?

You can feel the sorrow And you can feel the pain Know there's no tomorrow You'll never love again

Skies are filled with blood The sun no longer rises But no one understood

The final tribulation
The heavens take their fall
Experience hell's sensation
Satan standing tall

War between the powers Fury in the skies Heaven fight the dragon With evil in its eyes

Trubulation
In love with Satan
Desecration
Come to Salem

Nowhere to run & nowhere to hide
The power of darkness is waiting in side
As the heaven fall down
Hell will survive
The serpent of death devours your life
