

# Behind the Leathermask

Powerwolf

Heavy Metal in the night  
Deadly soldiers came to eat you alive  
Final battle for the wild  
Mental warfare of the scorpion tribe  
Blood invasion - Out to fight  
In a circle - We're the servants of light

Stay - Better start to pray  
Killing me today  
Feel the war inside yourself  
And burn them all away

Leather hides my face  
Blood is on my trace  
Until the end of days

Behind the leathermask  
Behind the leathermask

Savage union - Strong and wild  
Wolves of darkness  
We're the murderous five  
Fire warning in the night  
Cities burning  
Killed by serpents of might

Stay - Better start to pray  
Killing me today  
Feel the war inside yourself  
And burn them all away

Leather for the night  
Prophecies of might  
Dying side by side

Here comes the leather...  
Here comes the leathermask
