

# Living On A Nightmare

Powerwolf

A blood red moon is shining  
And outside in the still  
Creatures of the night arise  
Get ready for the kill

The voices in the darkness  
Sirens in the air  
A crying that no soul can hear  
The screams of your despair

Living on a nightmare  
Living on a nightmare  
It still carries on when we have gone  
Oh, Living on a nightmare  
(Nightmare! Nightmare!  
Nightmare! Nightmare!)

Gruesome steps behind you  
Electrify the nerves  
You're paralyzed, the end is near  
You get what you deserved

Your home will be the graveyard  
Your crypt my lifeless hand  
The end is in sight, for hell is here  
To see the very end

Nightmare! Nightmare!  
This night we take another soul  
Nightmare before the dawn

Living on a nightmare  
Living on a nightmare  
It still carries on when we have gone  
Oh, Living on a nightmare

Living on a nightmare  
Hell image, your nightmare  
The soul mate will burn when you return  
Oh, Living on a nightmare  
(Nightmare! Nightmare!)
