

Earth: The Story So Far

Prefab Sprout

Welcome to Earth, the story so far
The story so far

At first there was a vacuum
Where creation came to be
Singing 'save me'
'Save me'

Were we abandoned in the ether
Or did someone set us free?
Love me, love me

Earth, Earth, the story so far

Welcome to Earth, the story so far
The story so far

There was a baby in a stable
Some say it was the Lord
Singing 'save me', 'save me'

Why if it's no more than a fable
Should it strike so deep a chord?
Love me, love me

Earth, Earth, the story so far
Welcome to Earth

Science broke the news
The only absolute is light
Save me, save me

Wasn't that the message
Of the star on Christmas night?
Love me, love me

Earth, Earth, the story so far
Welcome to Earth
