

# The Mystery Of Love

Prefab Sprout

Have you ever thought who made all those stars in the endless sky above ?

It's a mystery, but no mystery like the mystery of love

Should I live to see someone smarter than me

Explain the secrets of the skies

I won't be too impressed, I've got a tougher test

What's going on behind your eyes ?

What you see in me I will never know

That's the mystery of love

But each time we kiss

Ignorance is bliss - that's the mystery of love

That's the mystery, that's the mystery, that's the mystery of love

That's the mystery, that's the mystery, that's the mystery of love

What you see in me I will never know

That's the mystery of love

But each time we kiss

Ignorance is bliss - that's the mystery of love

And while I do not know who made them long ago

I love the stars that light the night

And when you take my hand - what is there to understand ?

I only know that it feels right

Yes each time we kiss

Ignorance is bliss - that's the mystery of love

That's the mystery, that's the mystery, that's the mystery of love

That's the mystery, that's the mystery, that's the mystery of love

What you see in me I will never know
