'Til The Cows Come Home

Prefab Sprout

Aren't you a skinny kid Just like his poppa Where's he working? He's not working Thin as the smile I wear Cold as the beaches you comb Till the cows come home

Tell the truth again Tell the truth again Near to the knuckle, Near to the knuckle Why're you laughing? You call that laughing? Wearing your death's head grin Even the fishes are thin When the boat comes in

Things are better now Things are better now We've education I doff my cap to a life that lets you Dream a poor man's dream But he can't have his coffee with cream Till the cows come home
