

# Change The World

Press Play

I'm seein the outpour  
My knees are on the floor  
I feel the difference  
He is the difference  
I see an open door  
I long for so much more  
I feel the difference  
He made the difference

[Chorus:]

Everyone around the world tonight  
Gotta show his love and make it right  
We're gonna change, change, change the world  
Change, change, change the world.  
Everyone around the world tonight  
Gonna move the darkness into light  
We're gonna change, change, change the world  
Change, change, change the world.  
Tonight

I see your broken world  
My heart begins to stir  
To make a difference  
He is the difference  
There's more than just one way  
Cause we can start today  
To make a difference  
God is the difference

[Bridge:]

Letting go of all for you  
Everybody out there  
Calling all of the brave  
We're not giving the same  
Change, change, change the world.
