Press Play

You are like a force of nature
You blow my mind

Like a hurricane
You blow me off my feet
I can see the rain
It's comin through the heat

I'm spinnin around
Can you catch my fall
I'm not like myself
Not myself at all

You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind

Like and avalanche
You take me by surprise
You're like a meteor
You're breakin through the sky

I'm spinnin around
Can you catch my fall
I'm not like myself
Not myself at all

You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind

Oh, You are a force of nature
(Nature, nature)
Oh, You are a force of nature
(Nature, nature)
Oh, You are a force of nature
(Nature, nature)
Oh, You are a force of nature
(Nature, nature)

You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind
You are like a force of nature
You blow my mind
