I got a feeling that I can't deny  
A new sensation that I feel inside  
The lights are flashing right before my eyes  
The beat goes, the beat goes

I'm off the ground; there is no gravity  
An outer force that I just cannot see  
My pulse is pounding, it's just You and me  
The beat goes, the beat goes  
The beat goes, the beat goes

[Chorus:]

So, can you feel the rhythm, see the lights  
Make this feeling last all night  
All the worries out of sight  
Whoa! Whoa!

The treble drops just like an atom bomb  
Cause when we dance, we could do no wrong  
We'll keep it going till the day is gone  
The beat goes, the beat goes  
The beat goes, the beat goes

[Chorus:]

So, can you feel the rhythm, see the lights  
Make this feeling last all night  
All the worries out of sight  
Whoa! Whoa!

Summer heat or ten below  
We'll play our love audio  
[Repeat x4]

[Chorus:]

So, can you feel the rhythm, see the lights  
Make this feeling last all night  
All the worries out of sight  
Whoa! Whoa!
