

Earth Girls

Pretty Boy Floyd

The lights turn down real low
The spotlight starts the show
Everybody starts to scream
Loud guitars thats all I need
If you wish upon a silver star
3rd song in the 4th bar
My eyes are really glued on you
Forget the words
Now what am I gonna do
We'll see tonight

Calling all you earth girls
S.O.S from a different world

The set was a blur you know
I blink my eyes and
I'm done with my show
Backstage I really start to space
Drugs and alcohol in my face
Motley Crue on the jukebox now
Ten seconds to love
As a teen it really got me through
And now my boys
Play songs for you
You'll see tonight

Calling all you earth girls
S.O.S from a different world
Calling all you earth girls
S.O.S from a different world

Calling all you earth girls
S.O.S from a different world....
