

## Enter Forevermore

Pretty Maids

Listen to me  
There are things that our eyes can't see  
Things that our ears can't hear  
Something bigger out there

Something divine  
Something good that could change our  
Minds  
There must be something way down the line  
To lead us safe from here

And when you dream  
When you can't figure out what it means  
You know somethings can only be seen  
By the eyes of the blind

Whatever brought us here  
That gave us the gift of brith  
There's more between heaven and earth  
More than meets the eye

Ah ah ah ah ah

Enter forevermore

Do you believe  
In what is now forever will be  
What comes after eternety  
Can you comprehend

And here we are  
So close and yet so far  
At the end or is it all gonna start  
All over again

Was it all worth it  
Did we deserve it  
Enter forevermore  
Have we acomplished  
Or did we miss it  
Enter forevermore  
Did we stand up to the test  
Did we really do our best  
Enter forevermore
