

Such a Rush

Pretty Maids

You are a burning heart
A diamond among the pearls
In an ice cold world
And your appearance
Make me feel like I'm in ecstasy
You put a spell on me

When you're here
I feel the heat
Whenever you're near
I feel complete

I sense the scent of you
I smell that sweet perfume
When you walk in the room
You are the kind of drug
I get addicted to
I got the best of you

So come on
I wanna be with you
All night long
Do what lovers do

It's such a rush
You're such a thrill
You lit my lust
And I'm in for the kill
The queen of hearts
The perfect prey
You're a shining star
Girl you blow me away

You got that magic touch
You've got that glowing spark
You light'n up the dark
The godness of my dreams
You're my adrenalin
You are the sweetest thing

I get wild
I'm animal
Hungry like a child
for you girl

Chorus
Love embrace me fly me take me to cloud
Nine
Hold me touch me kiss me till the end of time

Chorus
