straight down to business although your loving is generous  
I knew that you could never picture this, me as a respectable gentlemen  
stay with me I'm down on bending knee ain't no copping plea 'cause I want you  
u here with me kissing and cuddling baby romance me  
show me how it's suppose to be, baby blu still a g' girl it's plain to see girl  
we was meant  
to be making history carving our names in trees mixing birds and bees  
will you stay with me
