

Love Is On The Rocks

Pride of Lions

Once upon a dawn the world stood still
And your sweet love fell like rain
Upon the autumn earth in waves of wonder

And like the waves that kiss the shore
Our love would span all time
Like a bridge across eternal waters

But baby when we touched tonight, by the firelight
I couldn't help but wonder
Where did all the feeling go, has the fire burned low
I don't know

Love is on the rocks, it's a state of shock
When a good love's dying
Love has gone adrift, we could save this ship
Or we could go down trying
I've cried all the tears I can cry tonight

Let's not make this harder than it is
We have seen the bottom line
Let's not waste each others' time with questions

We've been down this road before
How many teardrops will it take
To realize how much we need each other

But darling if it's gone for good it is understood
That we end as lovers
I wonder why it hurts so much, when you feel you've
lost
Your touch

Love is on the rocks, it's a state of shock
When a good love's dying
Love has gone adrift, we could save this ship
Or we could go down trying
I've cried all the tears I can cry tonight
Ooh, tonight
Yeah

(Solo)

But baby when we touched tonight, by the firelight
I couldn't help but wonder
Where did all the feeling go, has it lost its glow

Love is on the rocks, it's a state of shock
When a good love's dying
Love has gone adrift, we could save this ship
Or we could go down trying
Love is on the rocks, it's a state of shock
When a good love's dying
Love has gone adrift, we could save this ship
Or we could go down trying
Oh, love is on the rocks
We gotta save the love, baby

Love is on the rocks
Love is on the rocks
Yes, it is
I've cried all the tears I can cry
