Strike

Primal Fear

I've seen the lightning Can't wait for the thunder to roar This is my battle For honor and glory will soar

Afraid of my name They shatter with pain The army of horror Is getting them all

Strike - and take no prisoners Strike - holier than thou Strike - without exception Strike - holier than thou

With hate and anger We're standing to counter revenge There is no mercy Consistently in every sense

Opponents beware There's nothing to share Afraid of my name You'll shatter with pain

Strike - and take no prisoners Strike - holier than thou Strike - without exception Strike - holier than thou

Invasion rolls We're taking all over With heart and soul We'll stand our man

Strike - and take no prisoners Strike - holier than thou Strike - without exception Strike - holier than thou
