## **Suicide and Mania**

**Primal Fear** 

I see their faces, they're hunting me It's like a bullet flying over me

Despite the time they waste on me There's no way out, no breaking free I chase the shadow on the wall I am a prisoner of myself Just look at me

No doctor, no healing There's only disbelieving The naked truth, no fantasy No doctor, no healing This poison gas I'm breathing No other choice, than suicide and mania

Too many changes have ripped out my heart Edge of insanity, I am the evil part

This must be real no fantasy They're watching and destroying me I'll crash my car against a wall A silent scream, a final call A funeral march

No doctor, no healing There's only disbelieving The naked truth, no fantasy No doctor, no healing This poison gas I'm breathing No other choice, than suicide and mania

No doctor, no healing There's only disbelieving The naked truth, no fantasy No doctor, no healing This poison gas I'm breathing No other choice, than suicide and mania

No doctor, no healing There's only disbelieving The naked truth, no fantasy No doctor, no healing This poison gas I'm breathing No other choice, than suicide and mania
