Psychedelic suicide trip it and you'll never die You see sometimes I can not believe the things that acid does t o me

Chemicals inside my brain, laughter easing all my pain Once thing I cannot believe the things that this world does to me

Does to me

Somebody help me I'm fallin' apart at the seams Only salvation is a drug called L.S.D.

Psychedelic suicide I hate that's dwelling deep inside Look inside and you will see there's no such thing as make beli eve

Chemicals inside my brain assuring me that I'm insane One thing I cannot believe the things that this world does to m  ${\sf e}$ 

Does to me

Somebody help me, I'm fallin' apart at the seams Only salvation is a drug called L.S.D.

I can do anything

When I dose, I can do anything When I dose, I can do anything When I dose, I can do nothing

I can do anything

When I dose, I can do anything When I dose, I can do anything When I dose, I can do nothing

Somebody help me, I'm fallin' apart at the seams, at the seams Somebody help me, I'm fallin' apart at the seams Only salvation is a drug called L.S.D.

Underneath the skin, lies your misery
Somebody help me, I'm fallin' apart at the seams
At the seams
At the seams
At the seams
At the seams
