

I can't stand your fucking bullshit, liar  
Turning me life into nightmares  
Pick apart my head inside  
My head inside

Turn your back and you look away  
Pray to God there's a brighter day  
Feel my sanity slip away  
Get me through another day

It's my bed I made, I'll lie there  
My hole, my grave, I'm fine here  
These thoughts they cloud my mind  
They cloud my mind

Turn your back and you look away  
Pray to God there's a brighter day  
Feel my sanity slip away  
Get me through another day

How's your life without me so far?  
You whore, you cunt, you suffer?  
Rehabilitate my mind  
How's your life? Mines just fine

How's your life? Mines just fine  
How's your life? Mines just fine  
How's your life? Mines just fine  
How's your life? Mines just fine
