

Where does all the marijuana grow?
I don't know
Everybody's moving so fast
And it shows

We're cool like the sunshine we missed
Without a fist
I could reach you there around 10:00
To let you in, to let you in

If we don't come out to play
With the other kids today
We will all miss you
Roland's got a heart
And Percival just blew
Another jazz horn

Have a smoke and talk about a time
If that's all right
Everything's dramatic, come along
There's nothing wrong, nothing wrong

La la la la...
